1. Comment. The troop trains probably carried components of the 21st Gds Mech Div back to their home station in Halle; the two trains on 24 February 1954 probably were not dispatched from Weimar, but possibly from Ohrdruf or Kindel, while the trains on 25 February and 5 March came from the Lossa troop training grounds. On 7 March 1954, other contingents of the 21st Gds Mech Div probably moved from Ammendorf to Lossa.

5. Comment. The Rueckmarsdorf and Makranstaedt railroad stations are used for loading of troops which are quartered at the Leipzig - Schoenau (8241) barracks installation. As various units are stationed at this installation, the troop trains may have been dispatched to Koenigsbrueck, Wustrow or Altengrabow. 25X1

three troop trains with artillery from Altenburg to Ohrdruf and Georgenthal passing through Naumburg. The troop trains probably carried the army artillery units of the Eighth Gds Army to the Ohrdruf - Kindel area for field exercises which, on 11 March 1954, should have terminated. 25X1
